

Learning BOOSTER Workshops

CORE Workshops

Mind Moves® Institute offers the perfect **TOOLS** to improve children's ability to **PERFORM** in the classroom and **BOOST** their **CONFIDENCE!**

Attend the 5 CORE Mind Moves Workshops NOW:

The Neuroscience of Learning

Date: 06 March 2020
Time: 15h00-17h00

1

- Why do only some children learn?
- What interferes with learning?
- Learning at any age
- Mechanics = skills
- What can I do?
- Enhancing classroom learning

The Neuroscience of Development

Date: 06 March 2020
Time: 18h00-20h00

2

- Most children grow
- Fewer children develop, why?
- Meet the Three-in-one brain
- Why crawling, skipping, sitting still & correct/good pencil grip promote learning
- Everybody is intelligent
- Rote learning
- Concentration
- Cutting down on teaching time
- FUN in the classroom

The Neuroscience of Behaviour

Date: 07 March 2020
Time: 08h00-10h00

3

- A fresh look at poor behaviour
- 'Reading' learner behaviour
- Turning "I can't" into "I can!"
- Neuroscience of confidence
- 18+ : 1-
- The power of teaching with passion
- How can I change behaviour in the classroom?

The Neuroscience of Uniqueness

Date: 07 March 2020
Time: 11h00-13h00

4

- Teaching INDIVIDUALS not a class
- Dominance – fact or fiction
- The 'elevator' in the brain
- Assessing learning styles
- Tempo of work, task completion, hitting a blank
- Test & exam stress – what can I do

Neurodevelopmental Delays

Date: 07 March 2020
Time: 14h00-16h00

5

- Dislikes touch & people standing close
- Low muscle tone
- Plays rougher than most
- Can't sit still
- Anxious
- Thumb-sucking; hair or clothes sucking
- Slow tempo of work
- Poor pencil grip
- Inability to sit upright
- Reversals

"There's no such thing as a dumb child, only inadequate methods."

Dr Melodie de Jager
Founder of the
Mind Moves Institute

more?

Become a MIND MOVES MASTER TEACHER or a MASTER PARENT!

STEP 1

Attend the 5 core Learning Booster Workshops:

1. The Neuroscience of Learning
2. The Neuroscience of Development
3. The Neuroscience of Behaviour
4. The Neuroscience of Uniqueness
5. Neurodevelopmental delays

STEP 2

Choose any 5 elective Learning Booster Workshops:

1. Gravitationally Secure with Mind Moves
2. Dyslexia, Spatial Orientation and Mind Moves
3. No more Auditory, Speech and Language delays with Mind Moves
4. Legible Handwriting with Mind Moves
5. Splendid Spelling with Mind Moves
6. No more Low Muscle Tone with Mind Moves

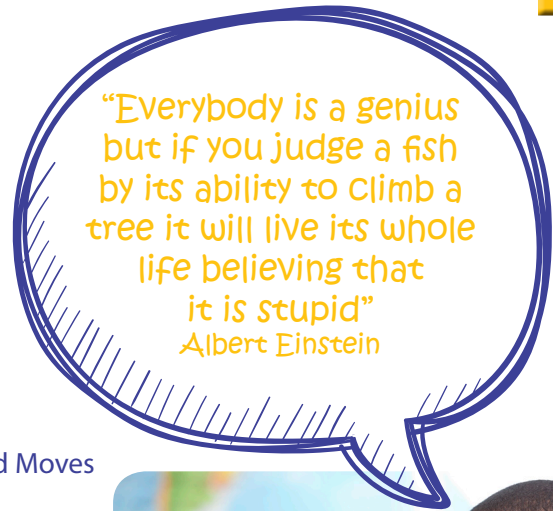

STEP 3

Implement Mind Moves **in the classroom or at home** and submit evidence of your Mind Moves **classroom or home project**.

Certificates are issued after each workshop on proof of competence.

STEP 4

After successfully completing steps 1-3 you become a **MIND MOVES MASTER TEACHER** or a **MIND MOVES MASTER PARENT**.
